

Basic Detail Report

View of Middlebury

Date

c. 1837-50

Primary Maker

Henry Hopkins

Medium

Oil on panel

Description

A light blue sky with several long, narrow dark clouds occupies the top two-thirds of the landscape. A green, grassy, mostly deforested round hill protrudes from the background. To the right of this hill are the silhouettes of two mountains off in the distance. Below the hill is a quaint view of the town of Middlebury in the 19th century: white steeples, brick buildings, and white homes are visible. In the foreground is a field covered in yellow-brown grass and a fence running from a line of trees on the right to the left edge of the painting.
